Await Move Of Either Labor Or Industry

Wage Stabilization Board Continues To Remain Crippled

By FELIX COTTEN

(U. S. Staff Correspondent)

WASHINGTON, March 16.—The government left it up to either industry or labor today to make the next move in the effort to set up satisfactory wage stabilization machinery.

Government officials declared that unless one side or the other takes the initiative, the Wage Stabilization Board will remain crippled by labor's refusal to rejoin it.

No, Truman Action

This apparently banished any idea that President Truman may step into the picture to end the controversy between industry and labor by reorganizing the board and defining its authority over labor disputes.

Commerce Secretary Sawyer, meanwhile, demanded tighter controls on consumer credit and higher taxes to combat inflationary "perils." He also called for effective wage and price controls and higher production.

Economic Stabilizer Johnston disclosed yesterday he had discussed the whole stabilization problem with the President. Johnston refused to say, however, whether he had made recommendations to the chief executive for breaking the existing deadlock.

The impression prevailed, after reporters had talked to Johnston, that he had made recommendations for ending the dispute. But stabilization officials said that Johnston has only kept Mr. Truman informed on developments, as he has Defense Mobilization. They declared that he has submitted no recommendations on the question to the President.

OBSERVES 100TH BIRTHDAY

LOS ANGELES, March 16.—(INS)—Mrs. Margaret Watson observed her 100th birthday with this advice:

"Don't waste one precious moment of life—it will never return." A native of Sunderland, England, Mrs. Watson came to California 60 years ago after traveling around most of the world.

Many motorists took advantage on Thursday of the first day to use their new Pennsylvania license plates. Some odd combinations are already showing up which will aid the car owners to identify their own car when it is parked among a large group of vehicles on local parking lots.

Impressive celebration of Holy Week which starts on Sunday, which is Palm Sunday, is planned by local churches. Noon services are planned during the week in downtown section while at least two three hour Good Friday services are planned in the city, one in the downtown section and the other on the south side.

Indication of the poor memory of local residents is the large host of lost and found articles in the lobby of the Cathedral where religious services have been in progress over the past three weeks. The box contains anything from glass cases to billfolds and pencils. The billfolds contain no money.

City fathers will have to repair many street curbs along with their other multitudinous duties before long. Many of the curbs were damaged by heavy machinery during snow removal, while others have crumbled with the weather.

President Is Silent On Future Political Plans

By ROBERT G. NIXON

(U. S. Staff Correspondent)

U. S. SUB BASE, KEY WEST, Fla., March 16.—President Truman refused again today to disclose his future political plans. But he said emphatically that he will exercise the constitutional prerogatives of president as long as he remains in the White House.

Mr. Truman, interrupting a three-week vacation in South Florida to hold a news conference, said yesterday afternoon that he will meet any new aggressive move by world Communism with all the powers of his high office.

Of the efforts by Republican bloc in the senate to place restrictions on his powers to send U. S. troops abroad, he said:

"I have no intention of being tied down by a bunch of politicians who are not in a position to make any sense out of the situation."

Elizabeth Taylor Squelches Reports Of Reconciliation

HOLLYWOOD, Mar. 16.—(INS)—Talk of a reconciliation between Elizabeth Taylor and Conrad (Nick) Hilton, heir to a hotel fortune, had a firm squelch from the actress today.

The screen beauty issued a statement through her studio, M-G-M, in which she said:

"There is no possible chance that Mr. Hilton and I will reconcile now or in 10 months from now. We are good friends and I hope we can always be good friends."

The actress and Hilton were divorced two months ago, but the divorce does not become final for 10 months.

Acheson Hopes For Early Ratification Of Japanese Treaty

WASHINGTON, Mar. 16.—(INS)—Secretary of State Acheson expressed hope today that the Soviet Union will reconsider its refusal to participate in negotiation of a Japanese peace treaty.

Acheson, at his first news conference since returning from a Bermuda vacation, also said he hoped that the treaty can be ratified this year and the earlier the better.

The secretary said he associates himself with Ambassador John Foster Dulles' denunciation in a Philadelphia speech of the Soviet failure to go along with a Japanese treaty.

TOKYO, March 16.—(INS)—Korean President Syngman Rhee notified Gen. Douglas MacArthur today his government plans to call upon the United Nations to authorize the bombing of Red China "to end this Chinese War" in Korea.

The venerable Korean president, in a message to the United Nations commander, declared:

"We are making formal request that UN may authorize you to end this Chinese War by bombing the source of Chinese reinforcement in men and material from their sanctuary in Manchuria in order to restore peace without unnecessary sacrifice of lives and bloodshed."

Costello Faces Senate Action For Contempt

(BULLETIN)
NEW YORK, March 16.—(INS)—The Senate crime investigating committee today ordered Frank Costello to appear before it for questioning at 2 o'clock this afternoon.

The order, by Committee Chairman Sen. Estes Kefauver, was issued after a physician had testified this morning that in his opinion Costello was not too ill to appear.

NEW YORK, March 16.—(INS)—The Senate Crime Investigating Committee which learned about slot machines from the master himself rang up three lemons today on Frank Costello who took the gamble of his life and lost.

The alleged racket king, declaring that he was ill, walked out on a committee hearing in New York yesterday and today chairman Kefauver set the wheels in motion to send him to jail for contempt.

The Tennessee Democrat moved to call the full Senate committee together in Washington tomorrow, when no public hearing will be held, to adopt a formal resolution citing the swarthy Costello.

The resolution probably would then be presented to the Senate.

PARIS, March 16.—(INS)—The French cabinet agreed conditionally today to the proposal to hold the fall meeting of the United Nations assembly in Paris.

Announcement of the cabinet agreement said that the government now is awaiting a reply from U. N. Secretary General Trygve Lie.

COSTELLO TAKES WALK AT PROBE

NEW YORK—Reputed underworld kingpin Frank Costello (light suit) leaves his seat and stalks angrily out of the Senate Crime committee hearing. Costello's gaze is fixed on committee members. Rather than face further questioning, Costello walked out, defying the threat of arrest and a charge of congressional contempt.

KOREA—Tank led United States forces drove north toward Chunchon, the last major Chinese base in South Korea. One armored column pushed northeast from reoccupied Seoul (2), while another pushed northwest along the road from Hongchun (3), both meeting only scattered rear-guard resistance. Red resistance stiffened east of Hongchun, but apparently only to cover the continued withdrawal of North Koreans toward the 38th parallel. West of the city, the Reds have been reported for some weeks to be fortifying the Hongchun river line guarding the approaches to Chunchon.

Launch '51 YM Campaign Drive At Thursday Meeting

Judge John G. Lamoree, general chairman of the 1951 Y.M.C.A. membership campaign, on Thursday night spoke to team captains, division chairmen, and team members, while launching this year's drive to recruit members, at the Y.M.C.A. building.

After a brief singing session led by Al Mellor, and an introduction by Alec Samuels, the judge proceeded with commendable references to the goals and achievements of the Y program. He maintained that our interest in providing the right facilities and instruments to today's youth would eventually play an important role in the future of our country, that our greatest defense can now be built in the character of our youth.

He cited the youth program of the Y.M.C.A. as probably the greatest in the country and extended the campaign.

Mrs. Enemy was the daughter of Percy Avery Rockefeller who left an estate estimated at \$400,000 when he died in 1934. Percy was a son of William Rockefeller, a brother of John D. Rockefeller.

U.N. Forces Are Driving Nearer To 38th Parallel

New Defense Line Of Enemy May Have Now Been Reached

By LEE FERRERO

(U. N. Staff Correspondent)

TOKYO, March 17.—(Saturday)—Tank-led American troops caught up with the rear-guard of retreating Chinese Red forces on the central Korean front Friday evening and ripped into the enemy ranks with bayonets.

A pooled dispatch did not give the exact location of the bitter fighting but graphically reported: "Americans following tanks on foot charged the surprised Chinese with bayonets drawn just before sundown."

"The locked in fierce hand-to-hand fighting amid a hail of burp gun bullets and exploding Chinese 'potato masher' grenades."

"Fighting stopped at dusk with both sides withdrawing to defensive positions."

Resistance stiffens. Stiffening resistance of the retreating Chinese had been marked Thursday night by a banzai charge of an estimated 500 Red troops on the central front.

American troops broke up the attack in a four-hour struggle during which they used bayonets, small arms and bare fists. International News Service Correspondent Cecil Brownlow reported.

Tightened censorship regulations also cloaked the exact scene of this battle.

After the cracking of this counter-thrust by the Chinese Reds the tank-powered UN forces resumed their crushing advance up four main routes toward North Korea beyond captured Seoul, Hanchon and Yudong.

Vanguards of the Allied troops were shot forward to within 15 miles of Parallel 38.

This was reported on a Friday night dispatch from International News Service War Correspondent Robert Schakne.

He quoted an Eighth Army bulletin as saying Republic of Korea (ROK) First Division troops had completed the reoccupation of "deserted" Seoul, the national capital which has changed hands four times in the war. The Chinese Communists had abandoned the rubble-laden city Wednesday.

On the central front, it was added, U.S. First Marine Division troops fastened a firm grip on the newly captured mountain stronghold of Hongchun, 21 miles south of the 38th Parallel. However, UN patrols ran into small arms, machine gun and some mortar fire above the city.

Indications were that Allied troops were driving nearer to the 38th Parallel.

Four Boston Girls Are Killed In Crash

BOSTON, March 16.—(INS)—A deadly teen-age game of "chase" played in speeding automobiles was blamed tentatively by police today for the deaths of four girls in a crash at West Roxbury, Boston suburb.

Seven girls, all 16 and 17 years old, were in a ten-year-old sedan when a front tire blewout sent it hurtling into a tree. The car bounced into a second tree and came to a screaming halt with one side sheared off.

Six of the seven girls were thrown out—four of them dead. The driver, Mary Ellen Delaney, 17, was pinned behind the wheel and is in critical condition.

Authorities who questioned the survivors said the girls car reportedly was being pursued by boys in another car.

The hospital, including a staff of 12 doctors and 20 nurses, will be paid for and maintained by the Norwegian government for a period of six months.

The offer was made by Arne Sunde, Norwegian representative, in a letter to U.N.

PRESIDENT SILENT ON FUTURE PLANS

(Continued from Page One)

troops to the defense of western Europe, the president asked this question.

"Do you think they can change the constitutional powers of the president by resolution?"

Will Meet Emergency

Mr. Truman said he intends doing whatever is necessary to meet the present emergency under the constitutional powers of his office, he said.

"That's what I'm elected to do. I will carry out my constitutional powers. They can't amend the constitution by a resolution."

The president added that there is a considerable group of senators and representatives who are doing everything possible to support the administration's foreign policy.

Repeated efforts were made during a lengthy and exhaustive questioning of the president to draw him out on his intentions in 1952. The president was asked about Capitol Hill reports he would like to run for his old senate seat again in 1952.

The president replied: "No comment, you'll have to continue to speculate."

He was then asked: "Are you going to run for reelection?"

He retorted, smiling: "That's a question I will leave up in the air so those who want to speculate, can. I have no comment on that question."

Boy's chairman, Dick Matlocks and Craig McBurney reported 42 and 33 memberships for their individual divisions.

A. H. Gonick and William R. Schmidt, president and executive secretary of the community chest, then directed short talks to the boy team members present.

Following a brief speech by Y.M.C.A. secretary, Robert L. Meermans, praising the Y record and staff, Mr. Gonick contributed a check to the drive.

Dave Gatrall, program secretary, relayed instructions concerning membership solicitation to include the program.

Swept More Than Floors Of Store

CHICAGO, March 16.—(INS)—A hardworking janitor and the brother he summoned from Tennessee to help him will sweep no more in a Chicago drug store they cleaned too thoroughly.

Police said 29-year-old Abe L. Forrest, who wielded his broom with a view to the future, admitted sweeping between \$50,000 and \$60,000 worth of goods out of the downtown chain drug store where he worked for the past two years.

Business got so good that Forrest sent for his 27-year-old brother John, a good sweeper, who must appear with him in felony court today on grand larceny charges. The janitor paid John \$100 a month and thoughtfully sent \$40 a month to his wife in Tennessee out of an estimated \$1,000 monthly "take."

Abe met his downfall when detectives watched him sweep out an unusually large pile of rubbish. Concealed underneath the garbage were 90 cartons of cigarettes which Forrest said he sold to small neighborhood stores.

U.N. FORCES DRIVING NEARER TO PARALLEL

(Continued from Page One)

vanguards all along the hundred-mile front were beginning to bite into a new Red defense belt adjacent to and roughly 15 miles south of that parallel.

President Truman's statement that the parallel is not an issue in the UN's mission of freeing Korea from aggression encouraged the Allied forces in their steady advance toward that artificial border between South and North Korea. They were aided by the war's biggest air attacks as South Korea's President Syngman Rhee told Gen. Douglas MacArthur his government will ask the UN's permission for the bombing of China—"the source of Chinese reinforcements."

Cleared of Reds

Korea's centuries-old capital of Seoul, redeemed Thursday by the UN forces for a second time, was cleared of Red stragglers. But South Korean troops ran into sharp fire when they stabbed northwest from the capital on the main road leading to the 38th Parallel hub of Kaesong.

MacArthur, replying to Rhee's letter advising him that a formal request would be made at Lake Success for authority to bomb the Chinese "sanctuary," cautioned that the Red invaders have "suffered no decisive defeat."

The UN supreme commander pointed out that the Communist garrison of Seoul, unlike last September when the city was first liberated, "has withdrawn in good order."

MacArthur's words were borne out by battlefield developments. The Reds were offering hardened resistance, particularly in the central and east central sectors, indicating they may have set up a new defense line roughly 15 to 20 miles below Parallel 38.

Faith Healing

Thursday evening a large audience heard the evangelist speak on "The Truth About Faith Healing." The man borne of four, sick with palsy as found in the book of Mark was the basis for Dr. Appelmann's timely sermon. He pointed out that Divine Healing was an important subject in the Holy Book. He enumerated during the evening, the paralyzed sinner; the powerful Saviour and the perfect salvation. Being paralyzed with sin was pointed out as the worst sickness.

A full program of Gospel music was presented Thursday evening featuring the Eureka group, the choir and Rev. Troy. Rev. Charles Bergerson presided at the piano and Jerry Renkenberger at the electric organ.

Four services remain in the three-week protracted revival effort. Nearly 200 men will assemble for luncheon at 1 p. m. Saturday when Dr. Appelmann will speak. Plans will be formulated to have a revival fellowship group which will carry on similar campaigns every other year.

ROTARY ANNS HEAR TALK ON DEFENSE

"Atomic Energy and Defense" was discussed by Bart Richards at the meeting of the Rotary Anns Thursday when the group gathered for a 1 o'clock luncheon at The Castleton.

In his talk Mr. Richards stressed the fact that citizens should not only prepare themselves for physical defense but also for mental defense against the fears of atomic bombs. Of interest to the club members were several examples of the manner in which persons could help themselves in case of atomic attack as well as helping others.

Reports of the project and by-law committees were presented, with the members voting on a Y.W.C.A. campership for the Margaret Henry Home. A home economic award will be given to a high school student. The door prize, an arrangement of tulips, was awarded to Mrs. Ed Davenport.

The nominating committee gave their report, announcing the following officers were nominated: president, elect, Mrs. John Panella and Mrs. George Getty; vice president, Mrs. Ed Williams and Mrs. George Ritter; secretary, Mrs. M. E. Kennedy and Mrs. Ralph Audino; and treasurer, Mrs. M. A. Bickett and Mrs. Frank Burton. The new officers will be chosen at the April meeting.

On April 19 the Rotary Anns will gather for a luncheon-meeting at New Wilmington.

DEFENSE GOES FORWARD

General Eisenhower, installed at his headquarters near Paris, is engaged in working out the intricate staff arrangements essential to the effective development of Western European defenses. Under his command are the troops, ships and planes of 12 nations. As this effort goes forward, General Eisenhower is spreading within the wide aura of his influence an atmosphere of quiet confidence that Western Europe can be defended and is worth defending.

At first skeptical and pessimistic, European members of the North Atlantic Alliance are becoming convinced that their freedom is worth fighting for with some prospects of success. The massive air and sea resources of the United States are factors now appreciated at more nearly their true worth. While Western European armies can never expect to match Russia's land troops in numbers, on balance determined resistance can be offered.

Part of that balance is without doubt the atom bomb. On that, General Eisenhower's view, given to Senate committees some weeks ago and now published, are realistic. If the amount of destruction atom bombing could wreak were great enough to offset unfavorable moral and other factors, General Eisenhower would use the bomb. He would use it in self-defense.

Much is being said just now about the relaxation of American effort at the moment when Europe's effort is being tightened up. The tension is not as great as it was at the time of the Korean reverses. But a great deal depends on where one looks or relaxation of effort. It will not be found at induction stations, where men are being drafted, or at training camps.

PERMANENT LICENSE PLATES?

This is the time when the State Legislature could, with profit to the state, reconsider the idea of permanent license plates for motor vehicles.

We are approaching a scarcity of metals; there is urgent need for economy in state expenditures. Permanent license plates would help both causes. In addition to which it would save motorists endless bother changing plates yearly. All the motorist need do each year is change a small tab which identifies the year.

The state stands to gain everything. It would collect as much money of course, in license fees and it would save the cost of making new plates, of mailing them and of compiling long records each year of where the new license plates went.

We've seen no estimate of the dollar-and-cents savings; they would be extensive.

Some states have been using permanent plates for some time—Arizona, Connecticut, Delaware, Iowa, Maine, Mississippi, Oregon, Washington and Wisconsin.

FRIEND OF U.S.

In choosing as his prime minister a former ambassador at Washington, Hussein Ala, the Shah of Iran reveals the strong Western orientation of his government. Mr. Ala, educated in England, whose children are being educated at American universities, is a warm friend of the United States. He is, at the same time, a suspicious observer of the Soviet Union.

It was Ala who, in 1946, argued Iran's case against the Soviet Union before the United Nations. The Soviet, under pressure of world opinion, was forced to evacuate its troops from the Iranian province of Azerbaijan. Oil concessions, granted to Russia under pressure, were canceled.

The burdens which Ala will assume in the premiership are grave. The fanatical Moslem group which assassinated his predecessor, General Razmara, is uttering death threats against the new premier. But Ala, like the Shah, is a man of courage. It is a curious circumstance that the Moslem fanatics are not demanding domestic reforms, but capitalizing on anti-foreign prejudices.

ANY PENNIES?

The government wishes those who are hoarding pennies—why in the world would anybody do that?—would put them in circulation. For some reason or other, nearly all small coins, particularly the one-cent pieces, are in short supply and the demand for them is unusually high.

The explanation of the scarcity of available pennies may be found in the fact that sales taxes as well as special taxes on certain items in many cities and states cause a lot of these coins to be used by the stores. Anyway, there are not enough of them to go around, and so the president has asked an appropriation of \$1,430,000 to enable the Bureau of the Mint to manufacture a new supply.

Inasmuch as this causes no actual financial loss to the government, the request probably will be granted by Congress and without much debate.

Indian Yogi says he has a law of mind-and-body control that will defy atomic bombs. Bet he gets a letter from J. Stalin, Esq.

Churchill May Win Victory

Former Prime Minister Churchill's determination to heckle the British labor government out of office has become increasingly evident with polls and surveys showing excellent chances of a conservative victory in event of new general elections.

To use the vernacular, the doughty wartime leader has been "throwing the book" at Prime Minister Attlee and his labor regime.

And while Attlee seems to be taking affairs with his usual placidity, he doubtless is worried. There is no question about Churchill's political shrewdness. He has given the conservative press bushels of ammunition to fire against the government and the end is not yet in sight.

Traditional Maneuvers

Churchill is using traditional parliamentary means in an effort to achieve his aims.

Comparatively minor items are being pulled out of pigeonholes to force votes in the House of Commons.

The latest one was labor's attempt to cultivate the laborers in Africa to increase Great Britain's short egg supply. The conservatives calculated that this experimental scheme figured out roughly to \$60 an egg.

Labor can point out, of course, that any experiment is likely to be expensive and that a long-range view is necessary. But the headline appears to heavily-taxed and egg-hungry Britons of \$60 omelets is obviously considerable.

Right Down The Line

Churchill has gone right down the line, challenging the laborites on nationalization, rationing, administration, finance and defense and his stock is not exhausted.

Attlee has squeezed through each vote of confidence, sometimes by a dangerously slim margin and sometimes a more comfortable one. But Churchill's continued attacks on every conceivable issue is certain to undermine public confidence to a certain degree even though middle-of-the-road observers philosophize that no government could possibly be as bad as Churchill portrays that of Attlee.

Even though no elections are called within the next few weeks or months, Churchill's clear attitude has disposed of one long-standing possibility provided there is no war—a coalition.

It is generally believed that when his position is most strong last year, Churchill might have been glad to be summoned as senior statesman and adviser, possibly serving as Minister of Defense without portfolio.

Great Prestige

His immense prestige carries a much greater distance than any other man in England today except perhaps for King George himself, and his ageless oratorical wit and sarcasm still make his speeches even a thrill for those he attacks most bitterly.

Neutral observers have expressed belief that a throw-back to conservatism at the present time might unbalance Britain entirely instead of restoring the stability that Churchill wants.

The country has gone so deep into socialism that any attempt to extricate it in troubled times like these might boomerang into a disaster. Those who say this do not necessarily condone nationalization; they cite it as a risk inherent in any creation of a super-state.

Meanwhile, Attlee is struggling along, delighted to get a majority of six votes in the House of Commons and overjoyed by 10. If his government holds on for a full five-year second term under such conditions it will probably go down as the most browbeaten and long-suffering regime in British history.

One Man's Opinion

By Walter Kiernan

Our congratulations to Elliott and best wishes for a successful fourth term.

He is one of the few bridegrooms who can look over the wedding gifts and say "what did the Joneses send this time?"

But you just know Spring is here when Elliott starts a fourth honeymoon while Faye is returning from a third.

Meanwhile some of the Washington crowd is sending telegrams to Harry reading "better hurry back, the honeymoon is over."

Even the bi-partisan boys are getting more partisan . . . some toward their own party.

Some people confuse "coalition" with "bi-partisan" but they're not quite the same. "Coalition" means "we are equal partners in government" but "bi-partisan" means "junior partner wanted, to help front for senior partner's policies."

Try And Stop Me

By BENNETT CERF

A hunter with a big gun, goes a legend current, met up with a bear that had no gun at all. But the bear had claws—and wit—and refused to concede defeat. He asked the hunter, "What are you looking for?" "A fur coat," said the hunter. "Me, I'm looking for breakfast," declared the bear.

"What do you say to coming round to my nice warm den and talking over our prospects?"

So they went to the den and worked out a satisfactory compromise. The bear, emerging solo from the den, had enjoyed a splendid breakfast and the hunter was wrapped up in a nice fur coat.

The teacher at Dalton school told one of her favorite students, "Peggy, your final examination papers were a distinct disappointment to me. And what will your parents say? Didn't you tell me your daddy had promised you a bicycle if you achieved good marks?"

"Yes," said Peggy, stifling a sob. "Well, then," pursued the teacher, "why didn't you study harder? What were you doing the whole term?" Peggy answered, "Learning to ride a bike."

FALSE FRONT

Washington Calling

(By MARQUIS CHILDS)

Nearing Pay Dirt In R.F.C. Probe

WASHINGTON, March 16—The investigation into the Reconstruction Finance Corporation has at last, more or less accidentally, begun to get down to pay dirt. The mink coat is merely a fly speck on what has gone on, but for all that it dramatizes the influence industry.

For years rumors have persisted about the Maritime Commission and the favors handed out to political pals through the agency. Along with other reports, I have tried in vain from time to time to get at the facts.

The rumors centered particularly on the sale of tankers and merchant vessels to a chosen few insiders at the end of World War II. They were passed out, so the rumors went, over a kind of private bargain counter at prices far below their value.

Described Tanker Deal

Joseph E. Casey, a Washington lawyer and former representative from Massachusetts, has described a tanker deal in the course of which an investment in two companies of \$100,000 was run up into a profit of \$2,800,000. I am sure that this only scratches the surface. The whole history of the commission over the past six or seven years should be gone into with emphasis on at least two steamship lines which have been useful in providing fat jobs for political friends.

The facts should not be hard to get for a committee with the power of subpoena and the right to have witnesses testify under oath. I would imagine that the sums involved are much larger than any that have been brought out to date.

On to Aeronautics Board?

What is more, if Democrats and Republicans really mean to investigate the influence industry in Washington in its higher ramifications let them go on to the Civil Aeronautics Board. They will find a case read-made for them in the American Overseas Airlines merger with Pan American Airways.

In some respects the known facts of this case parallel certain cases developed in the RFC hearings. There, too, the experts, the examiners and finally the members of the board itself recommended against the merger. Then the White House reversed all the experts and the board and approved the deal.

Ever since there have been rumors of who provided the influence and why. Again, investigators with the almost no trouble at all in running the facts to earth. Let them call Joseph J. O'Connell, Jr., former chairman of the CAB, who resigned in indignation when he and the examiners who had thoroughly studied the case were overruled. Let them subpoena one or two White House aides who should know a fact or two about this transaction.

Don't Think It Will Happen

Now I don't think this is going to happen. For one thing such an investigation would be likely to run square into Senator Owen Brewster of Maine, Pan American's good friend and one of the half dozen most powerful men in the Republican party today. Of course, if such an investigation wanted to

turn to a little history, it could dig into how the European air routes were awarded after World War II, who exerted the influence there and who got paid. Here are the big prizes on the political bargain table.

Because I can't see anyone courageous enough or determined enough to go all the way regardless of who gets hurt, I doubt if one-tenth or one-hundredth of what could be shown up will actually be exposed. The Republicans are already cheating about this being worse than Teapot Dome. It isn't. But it could be.

Use of Tax Loopholes

Through much of the RFC story brought to light thus far runs another theme that could stand some direct exploration. That is the use of tax loopholes to avoid the payment of high taxes that most of us living on wages or salaries or royalties pay to the government on the grim deadline of March 15.

It is said that if the amount involved is large enough, a clever tax lawyer can convert almost any profit into a capital gain instead of income. This means that the rate is 25 per cent instead of 60 or 70 per cent. Casey testified that his profit on the tanker deal was a capital gain rather than income.

But that is just one tiny peephole in the tax curtain. Let a determined investigating committee discover to what extent a variety of tax loopholes are being exploited to avoid the payment of taxes so urgently needed to balance the budget and stem the inflationary tide.

Of course, for immediate political purposes the Republicans may feel they have enough. You lift the lid just a little bit and the smell is pretty bad. But immediate political purposes are not enough if the mess is to be cleared away and the public convinced of a real effort to establish a somewhat higher level of morality in this capital.

SNOWDROPS

How brave the snowdrops frail must be

To herald first approaching spring.

Foretelling to us all that we Shall soon see prouder blossoming.

No power that winter has it fears, No biting wind nor bitter cold. Through soil still frozen it appears. That those who grieve may be consoled.

Tulip and hyacinth wait the sun. The roses until June delay; But snowdrops, long ere winter's done, Trumpet that spring is on the way.

Mr. Middle Road

(By HOLMES ALEXANDER)

WASHINGTON, D. C., March 16—As the Great Debate moves now from committee room to Senate Chamber, the biggest gun to limber up is Senator Robert A. Taft, alias Mr. Republican, alias Mr. Congress, and, despite violent opposition from both parties soon to be (maybe), alias Mr. Foreign Policy.

There is an unhappy surprise in store for those who like to jeer at Taft's supposed ignorance in the related fields of military and international knowledge. I am able to report from the best of all possible sources that Taft has spent the 100-odd days since his November election in boning up on these matters. The same ravenous mind which bites off and digests great hunks of economic and legislative lore on domestic issues has lately been munching on encyclopedic data from this other larger. Two years ago, in the teeth of hallelujahs from the re-elected Fair Deal, Taft was able to stop the Taft-Hartley Act repealer and even write a new Labor Bill which passed the Senate. He did this by an amazing display of factual knowledge and by taking the honest position—very rare in partisan politics—that he'd perceived some mistakes in the Act of which he was the co-author in 1947. If Taft wins on foreign policy, it will be because of his self-same ability to assemble the facts and to change his mind as much as facts warrant.

Since his return from the Ohio hustings Taft has read heavily in military reports and memoranda held long and often unreported conferences with military experts. Among these have been Bradley, Eisenhower, Denfeld and several others whose names are equally impressive but cannot be given in this place. When Defense Secretary Marshall announced that the Administration planned to send only four additional divisions to Europe, Taft was not in the least surprised. He had previously received this information and a good deal more from Pentagon sources which are available to Senators who insist on getting at the truth. Taft also knows that this small figure is only a fraction—perhaps one-third—of the total number of additional American divisions which the Administration will later demand. He is in an informed position to make an educated estimate—but this figure should not be given here on the size of the international force which the Pentagon believes is needed to fight the Second Battle of Europe.

Argument Over Foreign Policy

Although he has all this substantial knowledge, Taft is disinclined to flaunt it—for a very good reason. He believes that the Great Debate is an argument over foreign policy, not over military strategy. When he takes the floor, he can be expected to hammer hard at this point and to refute the Administration's contention that a vote against the State Department is the same thing as a vote against the Pentagon. He has every confidence in the military judgment of Gen. Bradley, Eisenhower and MacArthur, but very little in Secretary of State Acheson and President Truman.

Taft has long ago stated his principle that the U.S. must go to war if Europe is attacked by Russia. He would prefer to save American lives by putting our chief reliance on sea and air fleets. But he knows that this is subject to the facts of warfare. As a matter of policy—not of strategy—he believes that the number of ground troops we send to Europe should depend on the Europeans' willingness to rearm and fight, not just on their willingness to talk about rearming and fighting. He is more "from Missouri" than Mr. Truman is at that score.

Never On Foreign Relations Committee

Taft never served on the Senate Foreign Relations committee, although he could readily make himself a place there. He believes that or domestic economy is the main factor in our continued safety, freedom and well-being. But the chit-chat that Taft knows nothing about the world overseas gets a hollow laugh from the man who had been around the world twice by the time he was 14. In 1918, as a rising lawyer, he served in Paris for a year as general counsel to the American Relief Administration under Herbert Hoover. His work carried him steadily rubbing elbows with the leaders of the Peace Conference which redivided the continent and established the League of Nations. He was abroad twice in the 1930's and again in 1943. His educational background—private school in New England, Yale University and Harvard Law School—is exactly the same as that of Acheson.

Taft's middle ground position, somewhere between the extremes of globalism and isolationism, causes him to get shot at from both sides. If there are Democrats, like Senator Connally, who wish to give the Administration a blank check on foreign policy, there are also Republicans, like Senators Kem and Malone, who would not throw the Administration so much as an old crutch. It is in this great in-between area that Taft hopes to find and establish a balanced policy.

Looking At Life

By ERICH BRANDEIS

Why not do away with Thanksgiving Day?

That is the suggestion made in the "Western Star", the Sixth Army newspaper published at the Presidio in San Francisco for personnel stationed there.

We have become a generation of grippers, according to the article, and instead of having one Thanksgiving Day a year, every day has become "Grippers' Day."

Here are a few of the grippers one can hear almost everywhere one goes, says the unknown writer to whom I herewith offer my apologies for swiping his thoughts:

Football tickets are higher, yet the stadiums are overcrowded.

Then the spectators gripe when it rains—while the boys in Korea keep bucking the line night and day, rain, snow, hail or death.

Low priced and high priced restaurants are crowded.

But we gripe when we have to wait for a table, while millions of people throughout the world are waiting patiently for a daily meal.

Coupon clippers are gripping over taxes, but dividends are highest in history.

We gripe at all the money our government takes away from us while the French and the British kick back at least 50 per cent of their earnings, and there is little to buy with what is left.

Of course, if you want to live in virtual slavery behind the Iron Curtain, you may not have to pay any taxes at all.

You would have a chance to gripe in those countries, not if you want to continue to live—if you call it living.

A 40-acre farmer griped like the dickens about the sales tax when he bought his new \$5,300 car.

A small business man griped because his profits for last year had fallen from \$7,000 to \$6,000.

I can't guarantee that the above gripes are based on fact.

But I doubt that General A. C. Wedemeyer, who is in charge of the Sixth Army, would have passed their article unless the writer knew what he was talking about.

But even if the author used his imagination, don't you hear plenty of gripes in your own town and among your own friends and acquaintances?

I know I do—and I certainly do a lot of gripping of my own.

Yet, every one of those gripes of ours would be cause for joyous thanks to millions all over the world.

And, with all our troubles, we still have good reason to celebrate 365 Thanksgiving Days a year.

State Probes Have Drained Funds Of Justice Department

HARRISBURG, March 16.—(INS)—Special investigations in Philadelphia and Pittsburgh have drained the state Justice department of nearly all of its operating funds.

The department is probing alleged corruption of the municipal government in both cities.

"We're going to need about \$200,000 to carry us through until the fiscal year ends May 31," Controller Lucille A. Stroup said today.

"We're just about bankrupt," she declared.

Miss Stroup said the General Assembly will be asked within the next few weeks to supply a deficiency appropriation.

All that remains of the department's \$1,000,000 biennial budget is \$21,000 to meet the department's payroll for the next two weeks, she explained.

A cost of \$84,273 was reported for the Pittsburgh probe started by former Attorney General Charles J. Margiotti last July, with unpaid bills of \$23,067.

A grand jury investigation that began in Philadelphia June 1, 1949, has cost the commonwealth \$47,455.

Westminster Will Send Representatives To Some 200 Churches

Westminster college will send representation to 200 churches in observance of National Christian College Day, April 8.

The college will furnish speak-

ers and musicians from its student body, faculty and alumni representatives to churches in three United Presbyterian synods—the New York synod, the Pittsburgh synod and the First Synod of the West. Close to 200 churches have requested Westminster representatives to take part in morning church services and evening services on National College Day. Last year the college participated in the program for the first time and had representatives in 115 churches.

LEG O' LAMB

Mom knows what granddad means when he says that he likes his lamb with the fleece off. He knows that lamb has a char-

acteristic fine flavor all its own. There is also a little off-side taste that he does not like.

Mom tries to cover up that unwanted taste and still keep the fine lamb flavor. To accomplish this purpose she uses a mint sauce which she makes herself. She grows a little patch of mint along the back alley and picks off the fresh green leaves as she wants them.

Over in England they seem to go for lamb more than we do. They get their mint sauce all ready made in a bottle at the grocery store.

Granddad says that it takes

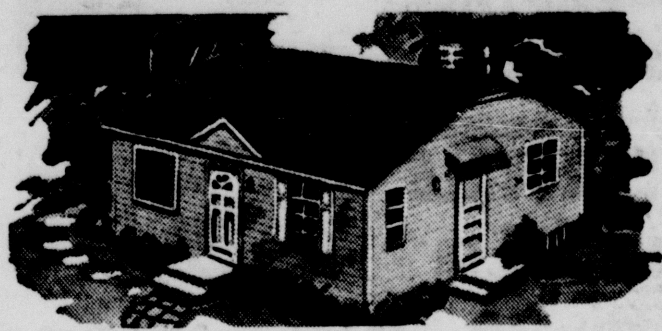

brains to know just how much mint. Mom pretends that she don't pay any attention to him. Mom knows.

Cattle And Dairy Farming Are Discussed By Babson

By ROGER W. BABSON
(Copyright, 1951, Publishers Financial Bureau, Inc.)
BABSON PARK, Fla., March 16.—The changed international situation is already being felt in rural areas throughout the country. Farm land which had been declining gradually for several months reversed their downward trend almost immediately after the Korean outbreak.

Outlook For Cattle
I have always maintained that land—and that includes good farm land—is an acceptable hedge against inflation or other types of crises. It may not be the very best hedge, but in the long run it should turn out to be a pretty good thing when cash is worth little and when other values dip accordingly. However, I do not generally recommend that my readers go out and buy a farm with the idea of growing produce or feeding cattle or hogs to sell commercially. Farming today is too specialized for any such hit or miss approach. What I advocate is that every city family who can afford it should own a sustenance farm, as insurance, capable of sheltering and supporting them in an emergency.

Readers who are now engaged in cattle raising, dairy farming and in producing large grain crops, often write asking me what I think of the prospects for the coming year in these fields. In my opinion, cattle prices generally will be well maintained over the next six months. Heavy employment at high wages should result in a continued high demand for beef. I do not anticipate that such demand will be adversely affected, to any substantial extent, by the imposition of still higher individual income taxes in 1951.

Lower Profits Possible
While cattle prices should remain at relatively high levels, increased producing costs generally may further cut profit margins in 1951, thus immeasurably increasing the risk in stock cattle farming. Breeding herds that grow in numbers should maintain their value even in the face of such declines, provided you keep a sharp eye on local conditions, with a view to buying replacements and selling finished cattle at the most opportune time profitwise.

Those readers who now have farm land and wish to buy more or who, having had previous experience as owners of farm land, wish to make new purchases in new locations are advised to act promptly. Good farm land will go higher. Admittedly, this is not the best time to buy it, but you should do much better now than you will be able to do by late summer. Thus, if you can find a good farm or good farm land that is not over-priced, my advice would be to go ahead, provided that you can pay about 50 per cent down and still have enough cash left

GETTING ALONG WITH YOUR MOTHER-IN-LAW

"My sister who has been married for five years has developed mother-in-law trouble. She says her husband's mother is very possessive, and as a result is ruining her marriage. Soon, I am to be married and would like some advice on avoiding these pitfalls. Can you help me?"
Answer: I don't know who said it, but it is certainly true: "A daughter is a daughter all her life; but a son is a son 'til he takes a wife."
Why is it that so many daughters-in-law are resentful of their husband's natural affection and consideration for their mothers? If you try to make a friend of

your husband's mother instead of an enemy, your problem will be solved, unless she is unreasonable and unfriendly.

Make the first overtures to her because as a general rule the man's mother is so afraid of intruding that she might seem aloof. The daughter-in-law holds the key to the situation. Mothers realize that whether they lose a son or gain a daughter depends upon whether they are accepted by the new daughter-in-law.

Treat her with the affection she deserves. Show her gratitude and she will be your friend for life.

HOME FACTORY

HINGHAM, Mass. — (INS) — When Mr. and Mrs. James C. Hosken failed to find just the right furniture for their home they started a factory. Mrs. Hosken does the designing and her husband, a consulting engineer, makes the plans work. A 10-man factory turns out the finished product. The Hoskens stumbled into the furniture business when Mrs. Hosken, a Smith college graduate who also graduated from the Harvard Architectural school, designed the modern furniture she wanted, but failed to find any one to manufacture it. The small factory now ships furniture all over the country.

STARVATION

The letters are written in Croatian, Slovenian and Serbian, and tell of conditions with little precedent in other parts of the world, even in other starvation areas.

State To Act
Upon DumpersCommissioners
May Prosecute

Two prosecutions seem to face an Ohio garbage dumper who has been coming over into Mahoning township weekly with loads of garbage from Struthers, Poland and Campbell, O.

Representatives of the State Health Department conferred with the county commissioners this week and after surveying the situation said they would enter suit against the gentlemen for pollution of streams. The commissioners expect to enter prosecution for dumping garbage on private property.

A NEW RACKET

The brothers of the fast buck fraternity have come up with an old racket with a slightly new complexion. And as a result County Detective Howard C. Klebe has a few watches and cigarette lighters.

This is the way the racket works. A company in Baltimore sends out a package to a prospective "salesman," in which is enclosed two wrist watches, two cigarette lighters and a punch board. With the merchandise is a slip showing what is purported to be the retail value of the stuff. The watches are said to be "regular \$79.50 values," but the price to the salesman is \$62.70. The lighters are set out as being worth \$10 each. The punchboard costs \$1.03. A total of \$73.73.

The "salesman" then disposes of the punches on the board which by a strange coincidence brings in \$73.73 if enough suckers are secured. The first winner gets a watch, the second winner a cigarette lighter, the "salesman" keeps a watch and a lighter for his work, the company gets \$73.73 and everybody else gets some experience.

Mr. Klebe took one of the watches to a reputable jeweler here and asked for an honest appraisal of the wholesale value of the watches.

The jeweler said they might be worth as much as ten dollars each. The sad part of it is, the watches are made by a concern which has always borne a reputation for good merchandise. The name is nationally advertised as being the standard watch of the air lines.

The gimmick is that the company makes up special watches for punchboard outfits. They are seven jewel watches.

Seeks To Take Place
Of Son In Korea

BALTIMORE, March 16.—(INS)—A 44-year-old Baltimore automobile mechanic asked President Truman to allow him to take the place of his son, a soldier in Korea.

Langdon P. McAninch, Sr., displayed copies of a letter he said he had sent to the president saying "let me take my son's place." McAninch also showed newspaper copies of letters from his son, Langdon P. Jr., in which the youth said he had been wounded in the knee. The father commented that there must be "thousands like me" who would like to serve in Korea to allow their sons to return home.

Princess Margaret
Trapped In Elevator

LONDON, March 16.—(INS)—Sprightly Princess Margaret was trapped for five minutes Thursday in an open elevator and delighted a watching crowd of hundreds with a running fire of amused comment on her predicament.

The incident occurred at the home exhibition which Margaret was visiting. She was kept in the elevator when the door refused to open.

"Can't we go up again?" was Margaret's first reaction.

Then, surveying the large crowds watching, she quipped: "Look at all those glorious people just looking at us without doing anything to help. Should we yell?"

Then she wondered aloud what would happen if it proved to be a prolonged siege.

"If we are here a long time," she remarked happily, "perhaps they will pass food to us through the bars."

The door finally opened. Margaret seemed almost sad.

The average person blinks once every three seconds.

Cancel State Funds
For New Recreation
Dams In State

HARRISBURG, March 16.—(INS)—The General State Authority has cancelled a \$1,760,000 allocation for construction of recreation lakes and dams in Pennsylvania.

Construction of places and amusements was banned by the National Production Authority last October for the duration of the national emergency.

The GSA said the action will permit use of the funds for improvement of mental hospitals, teachers colleges and other commonwealth facilities.

WILL CANCELS ALL DEBTS

PITTSBURGH, March 16.—(INS)—Father Thomas F. Cookley, Catholic priest who died March 5 in Pittsburgh, cancelled all debts owed him in a provision in his will.

The 71-year-old priest stated in his will: "Cancel, forgive and extinguish all debts and obligations owed me" and "exonerate all such persons from financial or moral obligations to me."

The will, filed for probate yesterday, was described as "substantial." All but \$3,500 in specific bequests was left to Sacred Heart church, where Father Cookley served.

STEWART TO RULE ON SITE

PITTSBURGH, March 16.—(INS)—W. Denning Stewart, special state prosecutor, said he will seek to determine whether the state can seek a new site for trials resulting from the special grand jury investigation in Pittsburgh.

Stewart said he will discuss the matter with state attorney general Robert E. Woodside in Harrisburg tomorrow.

Pittsburgh city controller, first of those indicted by the regular grand jury, is scheduled to go on trial April 16.

NEED MORE INITIATIVE

McCabe Resigns As Head Of Federal Reserve Board

KEY WEST, Fla., March 16.—(INS)—The White House on Thursday announced the resignation of Thomas B. McCabe as chairman of the Federal Reserve Board. William McChesney Martin, assistant secretary of the treasury, was appointed his successor.

Press Secretary Joseph Short said President Truman will send Martin's nomination, both as chairman and member of the Federal Reserve Board, to the Senate shortly.

The resignation was announced in an exchange of letters made public at a special news conference in Key West after a Philadelphia report said McCabe had resigned.

The White House made public a letter in which McCabe recommended Martin as his successor at the president's request.

McCabe said in his letter that he had accepted his post for a one-year term, but had now served over

three years and desired to resign for "overriding personal reasons." The Federal Reserve Board and Treasury department have been feuding for months over U.S. fiscal policies.

SCALE IMPORTANT IN HOUSE FURNISHINGS

While most people are conscious of color, arrangement, and form of furnishings in the home, they do not always consider scale. Scale is one of the basic principles of home decoration along with color, arrangement and form. Size of furnishings in relation to the room, to each other, and the human figure is the meaning that decorators give to scale.

Large, heavy overstuffed furniture is certainly out of scale with the size of many present-day living rooms in small homes. Even in a room, 13 by 18 feet, there is no place for the large wide arms on some furniture. One big chair will fill one corner of the room, yet it gives seating space for only one person.

Furniture used together should be similar in scale. Small spindly end tables do not go with large heavy davenports. Lamps should be large enough for the tables and chairs with which they are used and to give the amount and quality of light needed.

Scaled to the size of human figure.

Folks Must Feel Good To Do Job

To do a good day's work you must feel your best. James Keelan, Jr., 5565 Labadie Ave., St. Louis, Mo., is a machine operator. This is hard and exacting work and a man has to be on his toes to get the job done. There was a time when Mr. Keelan did not feel up to his work — was troubled with digestive disturbances. But Mr. Keelan James Keelan, Jr. heard about how HADACOL was helping folks suffering from deficiencies of Vitamins, B1, B2, Niacin and Iron.

Mr. Keelan says:

"In recent years, I had been troubled with heartburn and indigestion. But, since taking HADACOL, I no longer suffer heartburn. Now, I can eat anything without ever suffering after meal distress. I have recommended HADACOL to a number of my fellow workers."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today.

ure furniture should be comfortable for those who use it. Some chairs are too high; some chair seats are too long from front to back to be comfortable for short persons. Many tables and desks do not allow enough knee height for tall persons.

When it comes to draperies and curtains, select those that are full enough for the height and width of the window and suitable to the size of the room.

HOUSECOAT SAVES WEAR ON CLOTHES

A housecoat or robe has a definite place in every woman's and girl's wardrobe. Whether it is made of practical utility material or luxury fabric for leisure hours, a trim, attractive housecoat will help to save wear and tear on street clothes and better dresses.

The type of housecoat most suitable to your needs will determine the choice of design and material. The wrap-around is the most general all-around choice. It is easily slipped on and it also is a good style for women who travel. The step-in type looks more like a

dress and is appropriately used for hostess or dress-up robes. Some women and girls prefer the combination of shorter robe with pajama trouser.

Washable material is the first choice of many homemakers for housecoats. Cotton prints, seersucker, chintz, and outing flannel are among the popular wash fabrics.

Chenille and terry cloth in white or colors are favorites. They are washable, absorbent and do not need ironing. Smooth washable rayons are also attractive and serviceable.

For more warmth you will find wool or wool mixtures, corduroy, velveteen or quilted materials good choices. Taffeta, satin, velvet, brocades and other glitter fabrics are more suitable for the dress-up robe or hostess gown.

Robes or housecoats offer an opportunity for the woman whose experience in sewing is limited as well as for the beginner. If you are in either of these groups, choose a fabric that is easy to handle, a pattern that is simple in

style, and you will find the sewing is easier than for outer garments.

FIELD DAYS INCLUDED IN GRASSLAND PROGRAM

Field days and a grassland club, in both of which Lawrence county farmers will have a chance to participate, will highlight a statewide program aimed at making better use of grass in Pennsylvania agriculture.

The field days, in late May and early June, will be held at five locations in the state. Principal point of interest at each will be 60 or more different grass and legume plantings, part of the forage crops research program of the Pennsylvania State college.

First of the field days will be May 22 at the state hospital farm at Wernersville, Berks county, and the others: May 24 at State College, Centre county; May 29, Torrance state hospital, near Blairsville, Westmoreland county; June 1, A. J. Sordani farm, near Harvey's Lake, Luzerne county; and June 6, county home farm, Meadville, Crawford county.

Already farmers are showing interest in these events, and many of them likely will attend. Farmers from Lawrence county will go to the field day at Meadville June 6. Joint projects of the Agricultural Extension Service and the agricultural experiment station at the college, the field days will be in charge of the county agents in the respective areas. Scientists from the station, who have made the plantings, will be on hand to explain them.

but farmers will have opportunity to enroll. They will measure the worth of their respective grassland programs. Appropriate recognition will be given.

More and better feed for livestock means more meat, eggs and milk at a time when all of these are urgently needed.

DRESS TROUBLE

HOLLYWOOD — (INS) — Jane Russell had to get into her 25-pound, gold metal dress for added scenes with Robert Mitchum in RKO's "Macao." The dress is so stiff that Jane cannot sit down in it. To give the film star relief between scenes, prop men rigged a small block and tackle arrangement. Clamps were attached to the top of the dress and the weight suspended from pulleys instead of from Jane's shoulders.

AUCTION MASK

LONDON — (INS) — A wax mask of Napoleon, made a few hours after his death on St. Helena Island, will be auctioned soon.

The death mask, together with many other valuable historical items, will be put under the hammer at Sir Archibald Weigall's country estate near the Ascot in March.

MEZZANINE AND SECOND FLOORS—PHONE 8380

Around Hollywood

By JAMES PADGITT

(International News Service Staff Correspondent)

HOLLYWOOD, March 16.—For \$87.50 per week Quincy Puckett is convinced that he is "strictly for the birds" and he is all for it.

Puckett, a genial, 54-year-old grandfather, has been making his living scaring birds off film sets for 20 years. At the moment he is playing his peculiar trade at 20th Century-Fox for "The Frogmen," the first film to chronicle the exploits of the Navy underwater demolition teams.

Keeping the curious feathered friends away from outdoor movie sets saves picture producers thousands of dollars annually in expensive retakes.

Works With Birds
Puckett used to work in the aviary at the Bronx zoo where he handled such rarities as the cameroon finfoot, quetzals, umbrella birds and flocks of iridescent sunbirds.

"But now," he says, almost wistfully, "about all I ever get to work with are seagulls."

Quincy excused himself as three gulls wheeled and soared above "The Frogmen" set where Richard Widmark, Gary Merrill and Dana Andrews were ready to emote. The gulls came in for a landing on an artificial lake that represented the South Pacific ocean off a Japanese-held island. Puckett grabbed a 30-foot bamboo pole and took a couple of healthy swipes at the birds and scared them away.

"It was easier in the old days," sighed Puckett. "BB-guns once were the perfect answer. It wasn't fair. But now seagulls are protected by law in California."

Gullible Seagulls

The Fox studio is located only a few miles from the Pacific. During storms at sea the gulls come inland by the hundreds. Puckett sets out dead fish and other seagull delicacies several hundred yards away from the set. The gulls concentrate on the free handouts, allowing actors to continue with their dramatic chores.

Puckett has chased birds on just about every picture 20th Century-Fox has shot on the back lot since 1931. He next works on "Anne

Of The Indies," the story of a lady pirate and Blackbeard the buccaner.

"And I know right now that there will be plenty of seagulls around to keep me busy," says Puckett.

Four Per Cent Tuition Raise At Westminster

Westminster College has announced a four per cent increase in tuition, room and board costs for the 1951-52 school session. Dr. Will W. Orr, college president, has announced.

The increase will mean that the average Westminster College student next year will pay \$34 more than this year.

Under the new rates, tuition and fees will be raised from \$195 to \$200 each semester. Room rent will go up two dollars and cost \$72 a semester and board will increase from \$160 to \$170 each semester. Commenting on the increased rates, Dr. Orr said the new cost schedule will not offset the increase in operation costs incurred by the college this year.

Young Woman Killed In Auto Accident At Wilkes-Barre

WILKES-BARRE, Pa. March 16. (INS)—Miss Catherine Goff, 28, of Philadelphia, was killed Thursday when the automobile she was driving was involved in a collision with a truck in Wilkes-Barre.

The victim was a nurse on the staff of the Wilkes-Barre regional office of the Veterans Administration. Injured in the mishap were

Michael Ruston, 36, owner of the car driven by Miss Goff, and G.W. Acornley, 34, of Berwick, the truck driver.

The truck was owned by the Wise Potato Chip Company. Ruston and Acornley were taken to Wilkes-Barre General Hospital and Acornley later was held under \$2,000 bond on a charge of involuntary manslaughter.

CROP VALUE

DALLAS—The average annual cotton crop of Texas is so large that its value approaches the total production of gold, silver, zinc, lead and copper mines in the United States.

Man Sought In Triple Killing Eludes Police

WILKES-BARRE, Pa., March 16. (INS)—Police expressed belief today that a Korean war veteran who killed his estranged wife, her father and her brother-in-law may have escaped on a west-bound freight train.

A posse intensified search in a densely wooded area of nearby Ashley for Charles E. Rovinski, 25-year-old navy veteran who fled after the triple shooting Wednesday afternoon.

Detectives said it was possible

that the fugitive may have committed suicide. He carried a rifle and a pistol which he used to wipe out the trio in an assault on their car in Ashley.

But it was pointed out that Rovinski may have hopped aboard the freight on tracks which run near the woods where he was last seen.

The three victims—Mrs. Martha Rovinski, 22, her father, Andrew Stoka, 55, and George Tomko, 30, the brother-in-law—will be buried at a triple funeral service tomorrow morning at Ashley.

Rovinski was home on sick leave from Korea, where he had been injured in the right leg during the explosion of a minesweeper.

DAILY FIRE

NEWTON, Mass.—"Daily averages" may exist only in the minds of statisticians, but according to researchers of the Gamewell company, manufacturers of fire alarm systems, this is what fire will do today: Attack 700 homes, 139 stores, 80 factories, 7 churches, 6 schools, 4 theatres and 3 hospitals; kill 28, and disfigure or injure 60 more. For this one day's destruction, there will be about \$2,000,000 in property loss. Indirect loss is estimated as three or four times as much.

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

"Nipped In The Bud"

Mrs. Thomas was exasperated. "Oh, Janet!" she said. "That child would forget her head if it wasn't fastened on." And Janet was in the room when she said it. Dick's mother was upset, too. In a sharp tone, she asked one of those questions that don't call for an answer. "Dickie, why do you always drop everything?" she screamed. "If you're going to act like a baby, I'll have to treat you like one."

It doesn't take much to undermine a child's self-confidence. There are so many ways of making mistakes, so many things to learn. Every youngster needs support, needs to be made to feel that his folks think he's okay. If, when things are forgotten or a job is done wrong, he can count on some understanding help, he'll learn to do what is expected of him.

Hail Recapture Of Seoul As Victory Of Significance

By PIERRE J. HUSS
(U. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., March 16.—(INS)—U. N. delegates and officials today hailed Seoul's recapture as a significant victory over Communist aggression and eagerly awaited the arrival of U. N. forces on the 38th parallel.

Top level opinion at Lake Success is that hoisting of the blue and white U. N. flag on the 38th parallel in the next days would confront Communist Leader Mao Tse-Tung with the choice of further military defeats and heavy losses or of talking a peaceful settlement with the U. N. three-man "good offices" group.

The approach of U. N. forces toward the 38th parallel has given rise at Lake Success to a growing contention that recapture of the

imaginary dividing line between North and South Korea will fulfill the task set by the Security Council on June 25, 1950.

Crossing of that line, except for the possible establishment of bridgeheads in North Korea in the event the Communist forces refuse to quit the fight, is held most unlikely in the immediate future.

The hope among western delegates is that Mao will see the futility of bleeding his military po-

tential against superior U. N. firepower and listen to Lake Success peace overtures.

State Authority Plans To Market \$25,000,000 In Bonds

HARRISBURG, March 16.—(INS)—The state highway and bridge authority reported today plans have been completed for marketing \$25,000,000 in serial bonds to finance its construction program.

Bids will be opened at the state capitol April 11, the HBA announced.

The authority sold \$15,000,000 in serial bonds in 1949 as the first phase of underwriting its \$40,000,000 program.

Both issues are to be amortized by rentals collected from the state on the completed projects. Gov. John S. Fine was elected president of the authority today, an automatic procedure, and two legislators were received as members. They are Senate Highways Committee Chairman John G. Snowden (R) Clinton, and House Majority Whip Albert W. Johnson, McKean.

Nine County Men Are Enlisted Into U.S. Naval Service

Chief J. B. Hodge of the New Castle Navy Recruiting Station announced recently that nine Lawrence County men have enlisted in the U. S. Navy and have been transferred to Great Lakes for basic training.

Those enlisted are: John M. Staffick, 1509 Poplar street, New Castle; Edward J. Smith, Jr., 30 Spring street, New Castle; Charles S. Grimm, R. D. 1, New Wilmington; Paul W. Kirstatter, 704 Wayne avenue, Ellwood City; Robert V. Williams, 613 Jefferson avenue, Ellwood City; Harold D. Loe, Jr., 205 East Wallace avenue, New Castle; Theodore E. Scardfield, Jr., R. D. 5, New Castle; Thomas Jones, R. D. 9, Box 430, New Castle; and Arthur F. Wehman, Jr., R. D. 1, Wampum.

All were enlisted for four years. **SILVER SOFT**—Pure silver is softer than pure copper.

Need Musicians In U.S. Navy

In order to improve the overall recruitment of musicians for the Navy, the Pittsburgh Recruiting Office today clarified the necessary qualifications for interested men.

There is a need for applicants who specialize in the french horn, flue, piccolo, oboe, bassoon, clarinet, and saxophone.

Applications from string instrumentalists are acceptable, but chances for selection are greater if he also plays a band instrument.

Musicians are processed as all other Navy recruits, taking the same physical and mental examinations. However, authority to ship these men come from Washington, D. C. They are not required to enlist if they do not pass the audition. Once enlisted, musicians receive the same boot training as other recruits, being assigned to the School of Music in Washington upon completion of their training.

Application for this program should be made at the New Castle Navy Recruiting Station, Post Office Building, New Castle, Pa.

MAILS LETTER IN FIRE ALARM

CHICAGO, March 16.—(INS)—The newcomer was green to the big city and she had difficulty getting her letter into the red mail box.

So 17-year-old Mrs. Ruth Chambers, who came to Chicago from Tennessee only a few days ago, took a pin from her baby's diaper yesterday and forced the letter into the box.

Chicago firemen—who arrived by the score a few minutes later—explained to the red-faced Mrs. Chambers that mail boxes are green, fire alarm boxes red.

YW Members Now Total 1380

Third And Final Report Is Given

At the third and final report meeting Thursday afternoon of the YWCA membership enrollment, a total of 1,380 women were reported as having joined for the current year as announced by Mrs. James A. Gillespie.

Mrs. Gillespie, co-chairman for the membership, presided during the report meeting in the absence of the chairman, Mrs. Howard Kirk, Jr. The turkey was presented to the branch for their fine report.

Although no more weekly report meetings are scheduled, there will be a final one Tuesday, May 1 by which time workers are asked to have finished with all contacts which they have not been able to make to date.

Mrs. Gillespie spoke about the importance of captains going over the lists of people who were formerly members of the YWCA, some as far back as 1932. The committee is very anxious that these old lists be cleaned up but it needs the help of the captains to accomplish this.

Appreciation was expressed to the branch and to St. Paul's Lutheran church ladies for the very fine luncheon they served. Mrs. James P. Hill is chairman at the branch and Miss Anna Dietterle, co-chairman at St. Paul's Lutheran, served in the absence of the chairman, Mrs. Charles Brickner who broke her shoulder last week.

Y-Teens Report

Sherry Plonka, president of the Ne-Ca-Hi Y-Teen Club of 174 members and Nancy Ross, president of the Washington 8 and 9 grade Y-Teens with 100 members gave splendid five minute talks on "Why Y-Teens Like the YW".

The girls described not only ac-

tivities where they have fun, but also told how Y-Teen programs help them with their problems and helps them to take their share of responsibility in the community and in the world.

A primary ideal of the YWCA is to build a fellowship, but many women join even though they cannot participate in the fellowship found there. They join, giving their \$1.50 membership fee on more because they believe in the Christian principles and democratic procedures as practiced in YWCA activities and want to help.

Any woman or girl who believes she can subscribe to the purpose is invited to join. The purpose is, "To build a fellowship of women and girls devoted to the task of realizing in our common life those ideals of personal and social living to which we are committed by our faith as Christians. In this endeavor we seek to understand Jesus, to share his love for all people, and to grow in the knowledge and love of God".

At Mahoning school Wednesday evening at 7:30, the Girl Scout troop No. 60 gathered. Mrs. H. F. Culbertson reported good results from the cookie sale. The meeting opened with learning new games under leadership of Mrs. Earl Ruehle. In absence of Mrs. Albert Hahn Mrs. John

Porter, leader, worked with the girls on their "Good Grooming" badge.

Wed Sixty Years, Couple Passes Unusual Milestone

—News-Tribune Photo by Paul Schell

MR. AND MRS. W. J. GILMORE

Some people find it difficult to remain married to the same person for only five months or five years, while other couples celebrate their twenty-fifth and fiftieth anniversaries and are as happy as the early days of their married life.

However, Mr. and Mrs. James W. Gilmore of R.D. 2, Enon Valley head the list of "rare couples," having survived the trials and tribulations of marriage for sixty happy years together as man and wife.

The well-known couple will celebrate their anniversary on Monday, March 19, with a family dinner to be served at their country home in Little Beaver township. Friends and relatives of the honored couple will be re-

ceived from 2:30 to 5:00 in the afternoon at an "open house."

Some of the really "old-timers" of the community will remember when Maria Louise Cunningham and James W. Gilmore were married in Darlington, Pa., at the bride's home. A few of the wedding guests are still living at the present time.

Couples today are as a rule usually changing their minds about where to live and what they wish to do. Not so with the Gilmores, for they still reside on the farm where they settled sixty years ago. Mr. and Mrs. William Nesbitt, their son-in-law and daughter, and granddaughter, Velma Jeanne, reside with them. There are three other grandchildren and one great granddaughter.

Missionaries In China Arrested

MARYKNOLL, N. Y., March 16 (INS)—Maryknoll headquarters announced today that two more missionaries have been arrested by the Communists in China. They are Fathers Patrick J. Donnelly and Cyril V. Hirst, both of Philadelphia.

The two priests were arrested at their mission in Pingnam, Wuchow diocese in South China.

where they conduct the Holy Family Seminary to train Chinese boys for the priesthood.

Woman Injured At Youngstown Church

Mrs. Raymond Davis, of 227 West Grant street, received treatment at the Jameson Memorial hospital, at 11:45 p.m., Thursday, for injuries to her right knee, received in a fall down the steps of St. Dominick's church in Youngstown. She was able to leave the hospital after treatment.

New Castle Was Real Fortunate In Recent Storm

While New Castle's neighbors were busily engaged battling a heavy ice and snowstorm, New Castle was having comparatively mild weather on Tuesday. With the chilled air, rain, snow and slush making everyone in New Castle miserable, the surrounding communities were in the throes of the worst storm of the winter.

Most of the damage suffered by New Castleites consisted of injured dignity and cleaners' bills brought on by some thoughtless and rude motorists splashing slush on pedestrians. While in the neighboring community of Youngstown the damage to trees and shrubs alone was estimated to be \$50,000. The extent of damage in other communities has not yet been determined. New Castle missed being in the path of the devastating storm by a narrow margin.

Choate Host To Local Leaders

Luncheon Held By Bell Head Thursday

Following the ground-breaking ceremonies at the site of the new \$2,725,000 central office building of the Bell Telephone company on South Mercer, at the corner of South street, late Thursday morning, district manager Homer D. Choate was host to around 50 local business and industrial leaders at a luncheon in The Castleton Thursday noon.

Following luncheon, Mr. Choate presided at a brief program, when he outlined the history of the growth of the company, and assured his guests that completion of the building will insure the kind of service that the company would like to render, but has been unable to do so because of various restrictions and lack of space in the present quarters.

General Manager Speaks
Vice president and general manager John C. Longstreth was then introduced by Mr. Choate. Mr. Longstreth pointed out that the company has increased its business in western Pennsylvania as much in the past ten years as it has in the previous years of its existence, and despite this phenomenal

growth, has been able to keep pace with the demand for service.

This has resulted in the expenditure of \$330,000 in new central office and expansion programs in the state of Pennsylvania in the past ten years. Since 1923, he pointed out, in spite of the great wave of inflation which has swept the country, only one raise in the cost of telephone service has been sought by the company, which took place in 1949, and telephone service can still be had for \$2.50 per month, which is only the cost of a good dinner.

Mayor John F. Haven was called upon in conclusion and ex-

pressed his pleasure at being asked to participate in the history-making program, which was carried out Thursday.

He complimented the officials of the company for the splendid manner in which they handled the new telephone installation in the new city building and the splendid service they have since given the city.

Auto Production May Be Reduced 25 Per Cent Below '50

WASHINGTON, March 16.—(INS)—A top control official declared today that production of new automobiles may be reduced by the government this year 25 per cent below 1950 output.

The official, who declined to be named, also said that production of "some consumer goods won't be

curtailed at all" under the defense program.

His appraisal of the production situation contrasted somewhat with earlier predictions of higher reductions in output as the mobilization program speeds up.

The official said that his estimates were based on preliminary information and could not be definitely established for at least another month of study.

Speaker With Many Pets Gives Talk To Brownies

A virtually one-woman menagerie was the topic of the interesting and informative discussion given by Miss Georgine Mannick, 205 Walnut street, when she addressed the Highland School Brownie Girl Scout Troop 71.

The Thursday afternoon session started at 4 p.m. In honor of the Girl Scouts 39th anniversary, the Brownie meeting was devoted to its founder, Juliette Low. Juliette Low's life was a busy and full one. She had a great love for birds and one of her favorite pets was a "talking" bird. Keeping this in mind, Miss Mannick brought her parrot, "Polly," to the meeting.

Polly entertained the Brownies with her many tricks, including opening and closing the cage door, feeding herself, and talking a "blue streak." The parrot is 37 years of age, and is a Mexican, having a double yellow-streaked head. Many of the Brownies never had an opportunity to see a parrot perform at its best, and yesterday's demonstration was highly pleasing and entertaining.

However, Polly is not the only pet Miss Mannick has. She has a small menagerie including her blue ribbon horse—Majors; two chickens; two canaries; a rabbit; and her two dogs, Bonnie and Mopsy.

It was Bonnie and Mopsy who discovered her latest pet—"Pepper," a tame groundhog. Pepper is hibernating at present under the Mannick's house, but is expected to make an appearance soon. When found on the old fair ground—the home of her horse Major, little Pepper was only two weeks old. Miss Mannick fed the little animal and soon it grew. It dotes on doughnuts and tapioca pudding and before hibernating this winter gorged itself with food.

Miss Mannick's talk was thoroughly enjoyed by the children and after inviting the Brownies on a hike on the fair ground where Major lives, Miss Mannick returned home to her pets.

District Rotarians Will Gather In Sharon On May 11-12

Sharon expects to play host to more than 500 Rotarians when the local Rotary club plays host to the annual conference of the 259th district, Rotary International, to be held March 11 and 12.

District Governor Harold E. Burns, New Wilmington, will be in charge of the two-day program. A special program is being planned for the wives who accompany their husbands to the conference.

Although the conference headquarters will be at Shenango Inn, sessions will be held in the auditorium of Sharon high school, and the closing banquet will be held in the American Legion Home.

COSTUME JEWELRY
NEW YORK—(INS)—One of the largest manufacturers of costume jewelry recently gave out its research ideas on what will be good fashion in jewelry for next spring and summer. It revealed that the major emphasis will be on color. And special attention will be given to the shape of pins—to large earrings—and to trick, novelty effects in rings and necklaces.

"Heavens for Betsy" seems to be the thought running through the young lady's mind as she tries on a bonnet type (center). Atom Bomb Trial Recessed Until Next Tuesday

By JAMES L. KILGALLAN (U. S. Staff Correspondent)

NEW YORK, March 16 — The atom bomb spy trial involving the undercover activities of the Klaus Fuchs espionage ring in behalf of the Soviet Union was recessed unexpectedly today until Tuesday morning.

Federal Judge Irving R. Kaufman announced the adjournment shortly after confessed spy Harry Gold had been excused from the

stand without any defense cross examination.

After two minor witnesses were subsequently heard, attorneys for both sides went into a huddle at the bench. Judge Kaufman then informed the jury of the recess.

It was reported the government is waiting for Mexican witnesses who reportedly will testify concerning alleged plans of one of the defendants to flee behind the iron curtain via Mexico City.

On trial are Julius Rosenberg, 34, an electrical engineer, his wife, Ethel, 35, and Morton Sobell, 33, a radar expert.

U. S. Attorney Irving Saypol announced the government may conclude its case by late next week or early the following week.

Judge Kaufman told the jurors there was "a fair chance" that all of the evidence would be in within two weeks.

Dissolution Of RFC Demanded

U.S. Chamber Of Commerce Urges Immediate Action

By CHARLES B. SEIB
(U. S. Staff Correspondent)

WASHINGTON, March 16.—(INS)—The U. S. Chamber of Commerce today demanded "immediate dissolution" of the Reconstruction Finance Corp., while Sen. Bennett (R) Utah, called for similar action and labeled the agency "a lucrative opportunity for plunder."

These developments came after senators urged that Democratic National Chairman William Boyle and Guy Gabrielson, his GOP "opposite number," be called to explain mention of their names in the RFC "influence" probe.

The board of directors of the chamber of commerce asserted in a statement that "the country cannot afford to have the integrity or general moral level of any agency of the government questioned." The statement added:

"Continued existence (of the RFC) in an inflationary era cannot be justified—private financial facilities are sufficient to meet normal needs."

Bennett, a former president of the National Association of Manufacturers, said that "shocking disclosures" about the RFC illustrate "an old, old truth that there is no substitute for personal integrity."

Wampum Officer Serving On Ship In Korea Action

Lt. (jg) Charles DeJulius, USN, son of Mr. and Mrs. Alton DeJulius, Wampum, is serving aboard the attack cargo ship USS Seminole which participated in the invasions of Inchon and Wonsan, Korea.

The Seminole was a vital unit of the transport vessels serving in the redeployment operation at Hungnam. Although equipped to carry 109 troop officers in addition to cargo, the first shipload consisted of 2,004 Korean troops plus a full cargo.

Honor Judge On Birthday

Judge William H. McNaugher of the Allegheny county court was honored earlier this week when his sixtieth birthday was remembered by court attaches and attorneys with a huge bunch of roses.

He has served on the Allegheny county bench since 1931 and is the second oldest judge in Allegheny county in point of service. He is a graduate of Westminster College and before the first world war was a star athlete at Westminster.

House Committee Cuts \$36,525,000 Off Truman's Request

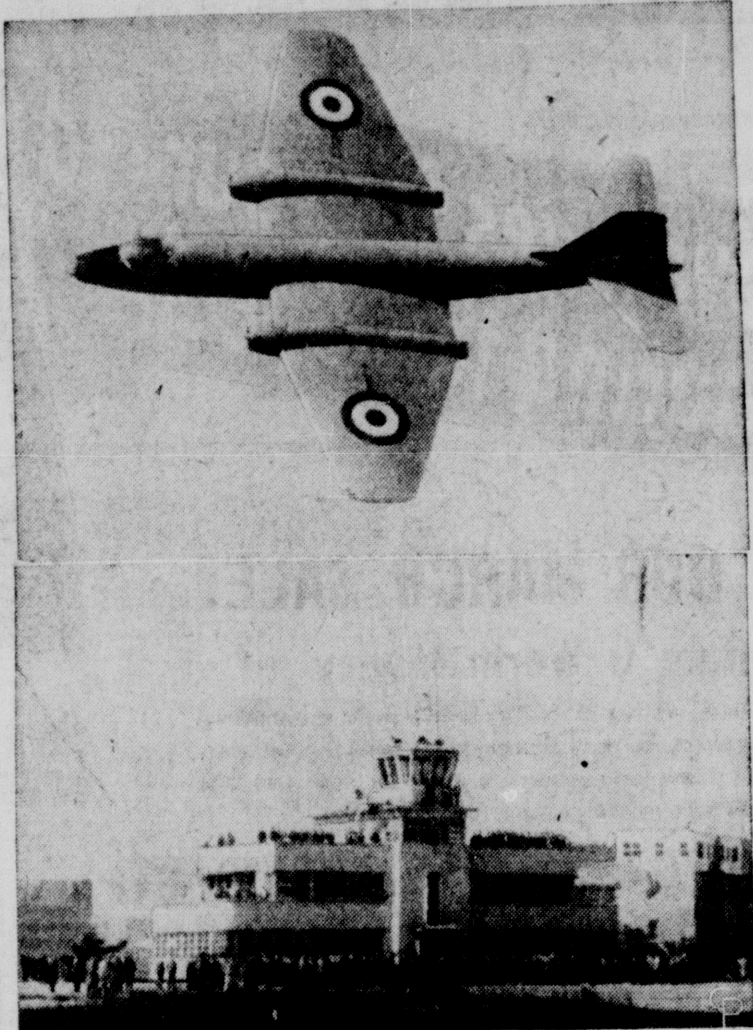

WASHINGTON, March 16.—(INS)—The House Appropriations Committee today approved a bill providing \$2,921,600,000 for the treasury and postoffice departments for the 1952 fiscal year which begins next July 1.

President Truman had asked \$2,958,125,000 for the two departments but the committee cut his request by \$36,525,000 or slightly more than one percent. It was the first regular appropriation bill of the year.

The committee, in approving the funds, emphasized that the treasury and postoffice departments "are performing necessary services directly related to national defense" or have had their work increased as a result of defense activities.

Pirates Sign Four Rookies

LOS ANGELES, March 16.—(INS)—The signing of four much sought after Los Angeles area prep baseball stars, including fabulous Wally Sinner of Bell High, was announced today by Pittsburgh Pirate scout Howie Haak.

Sinner, 18, who pitched five no-hitters in his last two prep seasons, will be farmed to Mayfield, Ky., of the Kitty League.

Others signed by Haak are Frank Ornelas, left-handed pitcher, who is destined for Hutchinson, Kan., as is Bill Bryant, right-handed outfielder. Gene Mollie, another outfielder, will go to Modesto of the California State League.

Stanky-Weatherly Injured By Drive

MIAMI, Fla., March 16.—(INS)—The New York Giants will be without the services of second baseman Ed Stanky for one week and outfielder Roy Weatherly for at least six weeks.

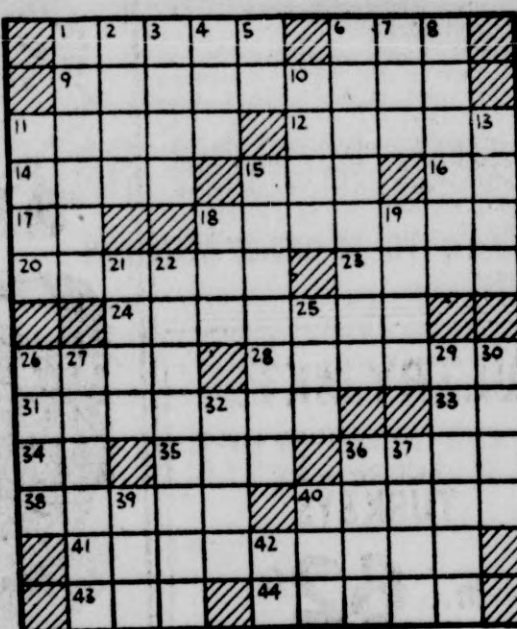

Weatherly suffered a fractured jaw yesterday when he was hit in the face by a line drive during batting practice prior to the Giants' exhibition game with the Phillies. The veteran pinch-hitter also lost three teeth in the accident.

Stanky was hit in the left wrist by a drive off the bat of Ed Waitkus during the game. He suffered a painful bruise and will miss the three-game series with the Dodgers beginning tonight.

Crossing Of 38th Parallel Again Causes Discussion

LAKE SUCCESS, N. Y., Mar. 16. —(INS)—President Truman's statement that the decision to cross the 38th parallel rests with Gen. Douglas MacArthur tallied today with western viewpoints at U.N. except on the issue of fully re-occupying North Korea.

Leading opinion at U.N. has stressed repeatedly in past days

that the crossing of the dividing line is a matter for military decision but that an overall political settlement — and possible peace talks with Red China — are the prerogatives of the general assembly. The establishment of bridge-heads across the 38th parallel for safeguarding the security of South Korea is recognized at Lake Success as the prerogative of the U.N. military commander and will draw few objections.

Defeat Favorites To Repeat As Tri-County Finalists

New Wilmington and Mt. Jackson entered the final round of the seventh tri-county tournament by way of wins in the semi-finals Thursday night at the Westminster college gym.

The Greyhounds downed Union 52-37 and Mt. Jackson defeated Bessemer 50-35. These same two teams reached the finals in last year's tournament after knocking off the tourney favorites, as they did Thursday night.

Shenango and Evans City earned the right to meet in the consolation final by defeating East Brook and Zellenople, respectively. Shenango squeezed past East Brook 40-38, while Evans City had a relatively easy time with Zellenople 44-28.

McGinnis Controls Boards

New Wilmington's Greyhounds jumped off to an early lead over Union and remained out in front all the way. The work of Walt "Mo" McGinnis around the boards was one of the high spots of the Greyhounds' win.

The 5 ft. 10 in. forward consistently outjumped his taller opponents to give New Wilmington control of the boards. The rest of the Greyhounds played great ball, with Lou Ringer standing out defensively.

John Jendrysk was good for Union until he was forced out on personals at the outset of the second half. Ken McPheters followed him a few minutes later.

Big Fourth Frame

Mt. Jackson pulled away from the Bessemer Culeters in the fourth quarter of the evening's final to win 50-35 going away. Bessemer jumped off to an 8-3 lead early in the first frame but lost it before the quarter ended.

The Mounties maintained a slight lead throughout the second and third periods, before they sewed it up in the fourth. The fine play of Gerald Scott kept the Culeters within shooting distance of the North Beaver team until that fatal fourth.

Shenango came from behind in the fourth quarter to down East Brook 40-38 in a consolation semifinal. Sammy Champ made a field goal and a foul to put the Wildcats in the lead with a minute to play and then Shenango put on a successful freeze after an Eagle scoring attempt missed.

Johnny Allen played a great game for Shenango. Clyde Cummins was best for East Brook.

A hard playing freshman guard led Evans City to a 44-28 win over Zellenople in the evening's opener.

The all-around fine play of freshman Dick Kennedy helped the Big Red pull away to a commanding lead in the second half.

There was almost a full house on hand to see the second night of play in the tournament. Finals will be played Saturday night with the consolation scheduled at 7 o'clock.

Papers received from Harrisburg were ratified and the business of the league will now begin on a more active scale. The organization is strictly a non-profit organization, financed by persons in the community.

Boys aged 9-12 will compete in the league, which hopes to have its playing field at Dean Park. One team from each ward of the city will form the nucleus of the league.

Next meeting of the league will be held on April 10.

Pirates Edge Chicago Cubs

SACRAMENTO, Cal., March 16. —(INS)—A ninth inning single by Pete Castiglione that drove in two runs gave the Pittsburgh Pirates a 2-1 victory over the Chicago Cubs at Sacramento yesterday.

The Pirate infielder was substituting for Con Dempsey at bat. There were two outs, bases were loaded and the count went to three and two when Castiglione connected with a single to right field to drive in two runs.

Brigham Young Meets Dayton In NIT Finals

St. John's And Seton Hall Out

By JOHN BARRINGTON (U.S.S. Sports Writer)

NEW YORK, March 16—(INS)—Brigham Young and Dayton—both novices in National Invitation Tournament play—constituted the lone stumbling blocks today to the other's championship aspirations.

The pair of them—one a true darkhorse and the other a pale grey pegasus—scrambled into tomorrow's finals with impressive triumphs last night at Madison Square Garden.

Draw 16,815 Fans

Unsung Dayton downed St. John's 62, although it required an overtime period after the top-seeded Redmen had come from ten points behind in the last ten minutes of regulation play.

Brigham Young, third-seeded but lightly regarded in the pre-tourney figuring, breezed to a 69-59 victory over a Seton Hall.

The NIT, recovering slowly but surely from the blight of basketball fix revelations, drew 16,815 spectators—its largest attendance thus far. At the end, the fans were impressed equally with the two winners.

Hornets Hold Hockey Lead

Hornets Favored To Grab Playoff

(By International News Service)

The five teams scrambling for the two remaining berths in the American Hockey League's playoffs get only two more chances to land a spot in the running for the Calder Cup Championship.

The Pittsburgh Hornets, favorites to win the Western Division berth, hold a three-point lead over the rival Cincinnati Mohawks and St. Louis Flyers who are deadlocked in last place.

Hornets Win
The Hornets whipped Hershey, 6-2, last night while St. Louis came from behind to trim Cincinnati, 5-4.

Pittsburgh must face the two strongest clubs in the league tomorrow and Sunday in Cleveland and Buffalo, but St. Louis and Cincinnati close the season in a vital home and home series for the two clubs.

On the other side of the league, Springfield and Providence are fighting for the other remaining berth. Springfield has a three-point bulge on the Reds. Providence would have to win both games while Springfield was losing its last two contests to pass the Indians for third place.

Avalon-Irwin In Title Tilt

WPIAL Class B Finalists Clash

PITTSBURGH, March 16—(INS)—Irwin meets Avalon at Pitt stadium tonight in a basketball game to decide the WPIAL class B championship.

Irwin, defending champs, lost to Kutztown 48-47 in the state play-off last year after a 42-game winning streak.

The team won both the WPIAL and PIAA titles in 1947 and 1948. Avalon, which won the WPIAL crown in 1944 and 1948 for class B, was a finalist last year, losing to Irwin by a score of 39-37.

Steve Hokuf New Pitt Line Coach

PITTSBURGH, March 16—(INS)—Steve Hokuf, assistant coach at Columbia university, today was appointed line coach at the University of Pittsburgh to succeed to Herm Meister.

Meister quit after one season at Pitt to take an assistant's job at California U.

HERE and THERE IN SPORTS LAND

FIVE OF THE EIGHT TITLES in pugilism are now held by Negroes, the father of Negro boxing having been Tom Molineaux, a former slave of Virginia. At present, the titles are held as follows: featherweight, Sandy Saddler; lightweight, Ike Williams; welterweight, Johnny Bratton; middleweight, Ray Robinson, and heavyweight, Ezzard Charles.

The first Negro, insofar as Here and There can learn, to appear in a ring was Molineaux. He whipped a Negro bully on a neighboring Virginia plantation, and his master was so proud, he gave Tom his freedom, encouraged him to follow pugilism and, went so far as to furnish Molineaux with transportation to England, which was in 1810.

Molineaux whipped an "Unknown" at Bristol, knocked out Tom Blake, and later whipped eight other "Unknowns" for which he received less than \$350. His opponents called themselves "Unknown," fearful that if it became known they had engaged in a bout with a Negro, they would lose "social prestige."

The American Negro's success caused a furore in England and a demand arose that Tom Cribb, the world's heavyweight champion, fight Molineaux. Cribb agreed and 20,000 persons gathered at Cophall Common to witness the battle. Molineaux made a punching bag of the unconditioned Cribb for 30 rounds and Americans present offered 5 to 1 Molineaux would win.

There were no takers. Cribb seemed a man without a chance, but in the thirty-first round, according to Frank Menke's Encyclopedia of Sports, Molineaux dropped Cribb with a right smash to the jaw. In trying to get out of Cribb's way, Molineaux stumbled and pitched headlong against a ring post.

The impact knocked him unconscious. Both Cribb and Molineaux were revived and shoved out into the ring. In the thirty-third round Cribb summoned every ounce of strength he possessed, struck Molineaux in the face, and he went down and out. Later, it was discovered that when Molineaux pitched headlong against the ring post he had sustained a fracture of the skull.

They met a second time in 1811, before 40,000 spectators. Cribb was in excellent condition, but Molineaux appeared only a shell of his former self. Cribb won in the eleventh round. Molineaux fought only a few times for trifling sums after that and was found dead in 1818 in an army barracks at Galway, England, the Encyclopedia reports.

However, having been the first American to ever have boxed for the world's heavyweight championship, Molineaux may appropriately be called the "Father of Negro boxers." Since then, the world has had many topnotch Negro fighters, for instance, Sam Langford, Joe Gans, Henry Armstrong, Jack Johnson, Joe Louis, Jack Blackburn, Peter Jackson, George Gunther, Gorilla Jones, the current champions, and many others.

Warriors Top Fort Wayne

Need One Win To Secure Title

PHILADELPHIA, March 16—(INS)—Philadelphia's Warriors all but nailed down the National Basketball Association's Eastern Division title last night by beating the Fort Wayne Pistons, 88-78, at the arena.

Either a win for the Warriors over Syracuse tomorrow night or one defeat for the Boston Celtics will clinch Philadelphia's second section crown in five years.

Jumpin' Joe Fuiks spearheaded the Warriors with 31 points, the last two goals coming in a nine-

point cluster that broke up the game. Ed Mikan backed him up with 16 tallies.

Philadelphia's Jim Konstanty will keep a careful eye on New York's Art Wilson when the regular National League season begins. The ace reliever of the Phillies, who was also the league's most valuable player, served up a big, fat pitch to Wilson yesterday and it cost the Whiz Kids a ball game. Wilson, the shortstop of the Giants acquired from Oakland in the ninth inning and gave New York a 6 to 5 victory over the National League champs. Another Oakland acquisition, righthander Al Gettel, worked three innings

for the giants and blanked the Phils without a hit.

The Washington Senators downed the Detroit Tigers, 5 to 4, on a seventh inning homer by Irv Noren.

Don Richmond of the St. Louis Cardinals made a leaping catch of a line drive in the ninth inning to end a Boston Brave rally and preserve a 3-2 victory for the Redbirds.

In other games the Pittsburgh Pirates downed the Chicago Cubs, 2 to 1, the Chicago White Sox tripped the Cleveland Indians, 10 to 9, and the Brooklyn Dodgers walked the Cincinnati Reds, 10 to 3, in a night contest.
